"The Amaro System of Acupuncture" Part 1

John A. Amaro L.Ac., DC, Dipl.Ac. (NCCAOM), Dipl.Med.Ac.

Gain the knowledge, skills and enthusiasm to transform even the most stagnant practice into a vibrant, energetic, healing office where clinical and financial success is assured. This one day can help yours too!!! “An Eclectic, Synergistic, Approach”

This seminar is based upon Dr. Amaro’s 40 years of clinical practice along with his personal observation and study with the most honored and revered Masters of acupuncture in nine different Asian nations as well as all parts of China.

You have read his articles in “Acupuncture Today” for over 10 years and “Dynamic Chiropractic” for over 25 years, now is the opportunity to spend one day in an accelerated, practical, clinical symposium presented personally by Dr. Amaro. He will share the “how, when, & why” of academics, practice procedures and clinical applications of a highly successful practice.

Learn in just one dynamic, entertaining, informative day, the procedures, philosophies and techniques which created “the” most successful, total referral, non insurance, acupuncture practice in North America.

You absolutely do not want to miss this one day opportunity

This seminar is for “any” practitioner who needs or wants “change” in their practice.

This program includes a multitude of tips, techniques, procedures, philosophies and approaches which few in acupuncture have encountered as many of them are from remote parts of Asia, in addition to target reflexes of Early American Chiropractic.

What a practitioner will learn in one day will stagger the mind while being extremely easy and practical to use in clinical practice.

This class will assure any practitioner can successfully treat more patients in one day than most practitioners will see in a full week

1-800-327-1113
In just eight hours, the practitioner will gain the knowledge and enthusiasm to transform the most stagnant practice into a vibrant, energetic healing office where clinical and financial success is assured.

If you are a professional with an expanded mentality and not afraid to entertain different ideas and techniques and have a desire to succeed, than this seminar is for you.

“How to establish a VERY successful practice by dramatically increasing your clinical results, referrals and income”

Dr. Amaro presents one of the most, practical, clinical, healing experiences of your career.

What you will learn in one day is easy to learn and easy to apply.

This is not a program on TCM rather the contemporary to ancient principles of multinational clinical acupuncture. Electro Meridian Imaging (EMI) included.

How to harness and radiate Qi for clinical and personal success. Even though some academic concepts will be familiar, most are things the average practitioner has never encountered.

8 hours Classroom
Saturday: 10:00 am—6:00 pm
$245.
This is a program you absolutely do not want to miss.

Acupuncture experience required for attendance.
